**Dear Professional Civil Engineer:****Subject:** Civil Engineer Occupational Analysis Survey

To stay up-to-date with the field of Civil Engineering it is vital that the Board for Professional Engineers, Land Surveyors, and Geologists (BPELSG) complete an Occupational Analysis in order to maintain the quality and validity of the California licensure exam. The Occupational Analysis allows us to define the most current tasks that a Professional Civil Engineer performs and the knowledge needed to perform those tasks competently.

Please complete the Occupational Analysis online survey (see link below), which asks you to rate the importance of tasks and knowledge related to the job of a Professional Civil Engineer as practiced in California.

Accessing the Survey

To access the survey, click on the following URL or copy the URL into your Web browser:

<https://www.prometricsurvey.com/se.ashx?s=123C457B04DB97FF>

If you encounter any technical difficulties with completing the survey or have questions regarding the survey content, please e-mail or call as listed below – be sure to identify the survey you are taking, which is the California Civil Engineer Occupational Analysis survey. If you leave a voice message, you will receive a response within 24 hours, Monday through Friday (except holidays).

E-mail: pnjsurvey@prometric.com

Phone: (609) 895-5234.

Please complete the survey no later than **September 28, 2011, 8:00 p.m. ET.**

Please feel free to extend the survey invitation to other eligible Professional Civil Engineers in the field.

Thank you for your time and for contributing your expertise to your profession.

Sincerely,

A handwritten signature in cursive script, appearing to read "R. Moore", is positioned above the printed name of the Executive Officer.

Richard B. Moore, PLS

Executive Officer

Board for Professional Engineers, Land Surveyors, and Geologists
